CHRISTMAS PACKAGES

Rules in effect during the 1942, 1943 and 1944 Christmas seasons governing retail and wholesale charges for Christmas gifts special packages for manufacturers of the gifts apply again this year, W. E. Holcomb, OPA District Director said today.

These rules, effective December 10 until January 15, in general classify these holiday packages into two main groups:

1. Where the packaging is primarily paper or cardboard and the articles are regularly sold other than at Christmas time, such as cigarettes, ties, etc. In these cases the ceiling price for both gift and package is the ceiling normal—16 applicable to the gift without the special wrapping.

2. Where the packaging is other than paper or cardboard and of a type that normally would carry a price above the price for the gift without the special packaging—such as tobacco, stationery or toilet items put up in a fancy wooden box, or packages containing articles not regularly sold except at Christmas. In these cases the gift may be priced on the retailer's or wholesaler's mark-up for his most comparable item.

Major Holcomb emphasized that these rules are applicable only to items packaged by manufacturers, and do not apply to items packaged by wholesalers and retailers.

HEATERS

General Electric company space heaters and both G. E. and Edison General Electric Appliance Company hot water heaters, at all levels of sale, will come to the market priced at pre-war levels, OPA District Director, W. E. Holcomb, announced today.

Except for the addition of the Federal Excise tax imposed on these items in July 1944, Holcomb explained, no price is higher than the price in March 1942 for a corresponding item.

Freight charges, formerly borne by the consumer in amounts varying with his distance from the manufacturing plant have been equalized in the order affecting hot water heaters, he said. Consumer prices are therefore uniform throughout the country.

After the usual business was transacted and consummated, the President Mr. Al Voight spoke and gave a well rounded picture of the Chamber's activities since the previous meeting, mentioning the progress being made on the office building and giving some advance information regarding prospects and the installation of a large Neon sign to be erected near the end of the bridge reading: "BAY ST. LOUIS." The sign itself will be approximately 25 feet long with letters two feet high and will be as attractive as any on the Coast.

Mr. Lucien M. Gex, the vice president also made a short talk on sweet potato dehydration and the advantages to the farmer planting the crop.

A slogan contest which in the opinion of judges best describes the advantages of the County as a whole will be inaugurated immediately. The slogan will be used on the stationery and other advertising matter. In a later issue of this paper, rules and regulations will be announced as well as the amount of the Cash Award.

In closing the meeting President Voight gave his views on Community loyalty as a prime factor for building a better City and County by everyone working for a common cause—he said.

"If you want to live in the kind of a town like the kind of a town you like

You don't have to pack all your clothes in a grip and go off on a long long hike

For you'll only find what you left behind for there is nothing that's really new

You knock yourself when you knock your town

It isn't the town it's you."

The meeting was then adjourned and the members were served hot coffee.

Give Victory Bond For Christmas Appeal of Drive Chairman

In an appeal to citizens of Hancock County to purchase E-Bonds for Christmas gifts, Walter J. Gex, Jr., Chairman of the Victory Loan, today released the following statement:

"For the first time since Pearl Harbor we are celebrating Christmas at Peace. It should be a joyous one, and we should all be grateful and thankful. We cannot, however, enter into the true spirit of the season until we have discharged our final obligation to our fighting men.

"The purchase and giving of E-bonds afford the best way to express our appreciation and to discharge our duty.

"From the practical point of view, Victory Bonds as Christmas gifts serve a three-fold purpose: First, a means of increasing our county E-bond sales to achieve our quota, and our best war finance record in the final drive; second, in view of the scarcity of consumer goods, the individual savings are our best light against inflation; and, third, there is no better investment for our money."

"Therefore, we urge you Christmas shoppers to consider E-bonds as the ideal Christmas gift. No one can criticize you for giving an E-bond, and the county certainly needs credit for every possible bond purchase."

The Chairman explained that all E-bonds sold and reported to Federal Reserve Bank by December 31, will count on the county's quota.

Enlistment In Officers Reserve Corps

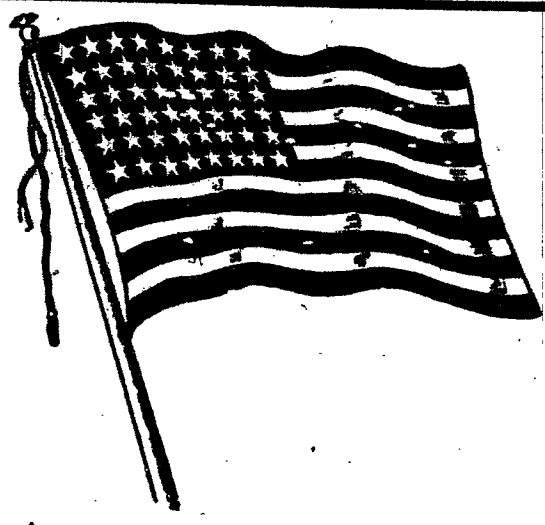

Atlanta, Ga., Dec. 11—There's an opportunity for all male officers of the Army of the United States, who have been or will be separated from the service to become members of the Officers Reserve Corps immediately, Major Harry O. Smith, Chief of the procurement branch, Fourth Service Command, announced today.

Major Smith said that such officers, between the age of 18 and 60, who are physically qualified for general service, limited service, or general service with waiver and who have been honorably discharged, are eligible for immediate appointment in the Officers' Reserve Corps for an initial period of five years and in the grade he held at the time of his separation from the Army of the United States.

Post war planning, Major Smith explains, provides for a large reserve army and it is estimated that approximately 400,000 officers will comprise the Officers Reserve Corps. Applications may be made to any U. S. Army Recruiting Office.

MUST MEET OUR VICTORY LOAN DRIVE QUOTA

At the rate that we are going, Hancock County will not reach its "E" Bond quota in the Victory Loan Drive. Certainly we can do better. Our quota has been cut in half in this drive. The last bond drive quota was double the amount of the present quota and it was over subscribed. The present quota has reached about the halfway mark.

It is probably time for us to wake up and realize that we have not yet completed the job. It will not be finished until such time as we reach our quota in the Victory Loan Drive. We certainly should not mar the beautiful war effort record that is now the proud possession of Hancock County. We have not as yet failed in any drive in any war effort. Are we going to allow ourselves to assume a nonchalant attitude and fall down in this our last drive? That is hard to believe. It just does not strike you as being the attitude of the people of this County. They have come to the front too many times to stand by now and have failure written across their brilliant record.

The bonds of your Country is a good investment and money is plentiful at this time. In addition to the investment we should think of the boys and girls who have rendered a great service to their country and who are scattered over the face of the earth. They must be brought back to their loved ones. They must be cared for if they are hospital cases. You certainly would want someone to help along if your boy or girl was one of these yet on some faraway island, or if your boy was in some hospital, suffering from the wounds of battle.

Let us remember them and do just a little. Go to your nearest issuing agent and buy a Victory Bond or call some member of the committee and they will lend you every assistance in purchasing your bonds.

Hancock County must meet its quota in the Victory Loan Drive.

This is the third son to receive his honorable discharge. Terrill Manieri, who now resides in Algiers, La., and Emilie Manieri, who plans to make his home in Bay St. Louis are the other two. Pfc. 46th Anniversary 1899-1945

When Hancock Bank opened its doors for business, October 1899, the population of Bay St. Louis was 2,872. When it began business in Pass Christian the population of that city was 2,028. The population of Gulfport was then 1,060.

When Hancock Bank opened October 9, 1899 it had 14 accounts with deposits totaling \$8,337.41. October 9, 1945 Hancock Bank had over 20,000 accounts with deposits totaling \$15,245,751.91.

About this time Captain J. T. Jones pioneered on the Mississippi Coast. The Gulf & Ship Island Railroad was completed to Jackson in 1900 and electric traction lines were built to connect Pass Christian, Gulfport and Biloxi. Sawmills, turpentine stills and creosoting plants were established and prosperity came to South Mississippi.

Forty-Six years ago the economy of Mississippi was dependent upon two major crops—trees and cotton, and our industrial growth was largely limited to the conversion of one and the cultivation of the other. Far-reaching changes have since come to Mississippi. Oil development now transforms the state. Refineries are being established. Factories are being built. Tung nut orchards along the Coast are in cultivation and mills render the nuts into commercial

products. The paper and pulp industry moves South. Plastic and synthetics encourage new capital. Quick-freezing provides a new impetus to the seafood industry.

With the threat of atomic bombs there is general talk of the decentralization of industry and the relocation of populations from the larger cities into smaller and safer units.

Mississippi is on the threshold of an epoch of promotion and prosperity. Ours is a generation of unparalleled possibilities. As one of the least developed of the states, Mississippi comes more richly into her own.

As Hancock Bank observes its 46th Anniversary, it turns to a promising future with high hopes and confidence. Working together we can make this Gulf Coast country one of the most livable areas on the American continent. We have the man-power, the climate, the wealth and the natural resources to build here a community justifying the vision and faith of our fathers who had little more than their courage and bare lands when they carved the Coast out of the wilderness.

Through work, thrift and our united activity we who have so much with which to do can achieve great objectives. This is our golden opportunity.

"THAT NIGHT WITH

stars is offered in "That Night With

tre Sunday and Monday.Franchot Tone, Susanna Foster,
Louise Albritton and David Bruce
comprise the quartet of stellar per-
sonalities. The picture was directed
by William A. Seiter, a veteran of
many major Hollywood successes.The story in which Suzy, Tone,
Louise and Bruce will be seen, is
one of the more delightful to emerge
from Hollywood's film shops in some
time. It is a timeless fable that
brezes in and out of a variety of
settings. These range from a New
York penthouse to a wholesale food
market, and include such interesting
spots as a de luxe mountain cabin,
a lunch diner and an ultra night
club.

HOME AGENT'S NOTES

THE SUGAR SITUATION

More sugar will probably be pro-
duced in 1946 than in 1945. But, we
still will not have enough to take
sugar off the ration list, especially
as long as the current price of sug-
ar doesn't increase.Cuba is expected to produce a lit-
tle more sugar next year. Beet sug-
ar production in Europe is ex-
pected to increase gradually during the
next several years. The Philippines
are going to need time to re-estab-
lish cane fields and harvest a crop.World sugar supplies in 1945 are
the smallest since the start of the
war. This is due largely to a re-
duced crop in Cuba this year and to
a reduction in world sugar stocks.
The need for more sugar in liber-
ated European areas has also reduced
available sugar.

CHRISTMAS SWEETS

With these facts about the sugar
situation in mind, you are probably
wondering how you are going to cook
the cakes and pies and cookies your
family expects at Christmastime.

A UNIVERSAL PICTURELOOK
HOW MANY CALLS

MISSISSIPPI MADE THIS YEAR

As Telephone Tommy points out, Mississippians did a
whole of a lot of talking from January through November
of this year. Fact is, more local and long distance calls
were made than in any other similar period in the entire
history of the telephone in Mississippi.We wish you could have seen the rush of these calls
through our telephone exchanges. They made the signal
lights dance across our switchboards with such speed and
sparkle as to turn the lights on Broadway green with envy.You might have felt that with so many calls being
handled, the telephone folks were making money because
of the war. The best way for Telephone Tommy to prove
the company did not profit by the war is to tell you this
startling fact. And that is "telephone earnings in 1945
will be the lowest in the company's history, except for the
worst of the depression years".This is because our expenses—wages, taxes, cost of
materials—cost of services—increased at a greater rate
than our revenues.Telephone people, however, were glad to be busy
handling Mississippi's calls. They were not concerned
primarily with figures. Instead these 3,280 busy Missis-
sippians were concerned with service—getting your calls
through and seeing that lines were kept in order. They
knew their job was to serve you well and with a
pleasant "thank you".

Use one-fourth to one-half tea-

powder for each cup of sirup. By
using these proportions, any recipe
can be changed to fit the sweetening
used. Here are a couple of recipes
you might like to try.Extension 118 "Satisfying Your
Sweet Tooth" will list a number of
other sugar-saving recipes.

Foundation Cake

1/2 cup fat
1/4 to 1 teaspoon flavoring
3/4 cup sorghum, cane, corn or maple
sirup

2 to 3 eggs

3 cups sifted flour

4 teaspoons baking powder

1/4 to 1/2 teaspoon salt

3/4 cup milk

Cream sugar and fat together. Add

flavoring and sirup gradually, stir-
ring until the mixture is light and
fluffy. Continue creaming and add
slowly the well beaten egg yolks.

Add the sifted dry ingredients and

milk alternately, a little milk at a
time. Beat in the dry ingredients,
stir in the milk. The first and last
addition should be the dry ingre-
dients. Fold in the beaten egg whites
last of all. Pour the batter into a
lightly-greased pan.For a layer cake, bake in a moder-
ate oven (350 degrees Fahrenheit)
for 25 minutes. For a loaf cake,
bake in a very moderate oven (325
degrees Fahrenheit) for 40 to 45
minutes.If sorghum sirup is used, change
the baking powder to 2 teaspoons,
and add 1/4 teaspoon soda to the dry
ingredients.

or 1/2 cup flour

3/4 cup corn sirup

3/4 cup boiling water

x 1/2 cup lemon juice

Use Nuts in Cooking

Pecans, almonds, walnuts and
other nuts in this country are a
course of ration-free fat and bring
richness and flavor to meals.Nuts are high in protein, so that
they can alternate at times for meat
in a main dish, such as nut loaf. They
also provide B vitamins—especially
thiamine—and a little iron and cal-
cium. But as far as nutrition is con-
cerned nuts are most effectively used
to supply some of the needed fat in
meals.In pastry, pecans ground fine may
substitute for half the fat. Mix and

bake like plain pastry.

Chopped nuts added to biscuits,
muffins, waffles, or cookies, give
flavor and a crisp note. Usually
one-fourth to one-half cup of chop-
ped nuts to each cup flour is a good
allowance.Nuts added to the batter make
a plain cake or cottage pudding
richer. In a cake batter, one-fourth
cup of nuts to each cup of flour is
likely to be plenty.Nuts in baked mixture tend to ab-
sorb moisture and make the finish-
ed product dry. So when using a
large proportion of nuts, place the
nuts first in boiling water a few
minutes. Then drain, and add them
to the mixture in the usual way.NEHI BOTTLING CO.

"CAPTAIN EDDIE" AT A. & G. THEATRE SUNDAY - MONDAY

Hailed as a true story more amazing than a fiction writer's wildest dreams, 20th Century-Fox's thrilling new hit, "Captain Eddie," a Eureka Pictures production starring Fred MacMurray with a brilliant supporting cast including Lynn Bari, Chas. Bickford, Thomas Mitchell, Lloyd Nolan and James Gleason opens Sunday at the A. & G. Theatre.

The action-packed drama of a man who lived adventure and romance thrilling beyond belief—making headline news with every move, smashing records as a racing driver, knocking enemy planes out of the sky, defying despair on a lonely raft in the Pacific—is the life story of Eddie Rickenbacker.

Producer Winfield Sheehan with Associate Producer Christy Walsh had the picture in preparation for two years, and before a word of the screen play was written, six outstanding biographers interviewed hundreds of people and consulted a thousand laboriously collected photographs covering every phase and period of Rickenbacker's colorful life.

Crowding a half-century of thundering thrills in its telling, "Captain Eddie" unfolds the incredible panorama of Rickenbacker's amazing life from the day he hitched an umbrella to a go-cart and rolled off a barn roof because he had to fly, through the breathless succession of events that made world headlines, all set against the counterpart of one of the most enthralling romances the screen has ever known. But more, the film is also the warm human story of an American boyhood set against the background of a free and democratic way of life that provided him with the opportunity to carve out his outstanding career.

For Fred MacMurray, the coveted title role of "Captain Eddie" is the most important of his career.

Not if the CIO abides by its pledged word, given only last spring.

Question: What would be the general effect on the country of a steel strike?

Answer: Over 40 per cent of all the factory workers in the country earn their living by making steel into useful products for American life. A shut-down of the steel industry would be a disastrous blow to reconversion and would cause a serious loss in both wages and industrial production at a time when they were most needed.

Question: Is it true that the Steelworkers Union has pledged itself not to strike?

Answer: Yes. Every contract which the Union has signed this year with the various steel companies has a clause wherein the Union agrees not to strike during the life of the contract.

Question: Are those contracts still in effect?

Answer: Yes. They were signed in the spring of 1945 to run until October, 1946.

Question: Who signed for the Union?

Answer: Its International officials—Philip Murray, Van Bittner, Clinton Golden and others—and the local Union heads at the various plants.

Question: Is there no "escape clause" by which either side could end the agreements?

Answer: No. The Union demanded a fixed, long-term contract and got it.

Question: Why did they want a long-term contract?

Answer: In the Union's own words before the War Labor Board, "The Union's request for a termination date of Oct. 1946, is not made capriciously or pressed here for bargaining purposes. It represents the considered view of the Union that only such a term will adequately serve the needs of stability."

Question: Did the recent strike vote violate the contracts?

Answer: No. Only an actual strike would violate them.

Question: Haven't there been strikes already during the life of the contracts?

Answer: Yes. There were 998 strikes in steel plants during the past year alone. They were mostly local strikes which the Union characterizes as "wildcat," but they meant a big loss in production.

Question: Does the end of the war justify changing the contracts?

Answer: No. The bond was sealed on both sides and should be kept whether times be good or bad. The steel companies are continuing to live up to these agreements. If a strike is called, it will be in a clear violation of the existing contracts.

A strike in the face of existing contracts would shatter any confidence in the validity of union agreements in the steel industry.
